Dear Students!

Welcome to PGDM – International Business Batch of 2021-23 at Jagan Institute of Management Studies, Rohini, Delhi.

With a legacy of more than 27 years of quality management education, we stand committed to provide consistent and high-quality learning environment blended with right mentoring, nurturing and coaching to ensure you a successful career.

The times are changing fast, and with the pandemic of Covid-19 subsuming the entire globe, the way business and life are run will entirely change and we will see emergence of newer models and ideologies. At this juncture, it is very important for you to have a fair understanding of concepts of management and its facets before joining the academic session in the campus.

To facilitate better learning and understanding, the faculty at JIMS Rohini have created a pre-induction module for you to have a glimpse of management life ahead and ensuring your engagement before you formally join us. This module is a pre-cursor to the course and designed with utmost care and passion.

The module covers basics related to economics, human behavior, marketing, accounting and finance and general management prepared by specialist faculty in that area. Each subject specific module has two to three assignments and covers reading, book recommendations, activities, write-ups, videos to watch and assignments to be done. The module has to be completed and submitted by 31 July 2021.

The module requires discipline, dedication and self- motivation, please plan your time accordingly and complete the module with utmost sincerity.

We look forward to your experiencing an engaging and enriching time working on the modules. In case of any query you can write to us at indu.loura@jimsindia.org .

Happy Learning!

HUMAN BEHAVIOR

Research indicates that the business landscape is constantly evolving to cope with the COVID-19 pandemic. In fact, it is changing human attitudes and behaviors today and compelling organizations to respond. The workplace has changed and the way corporates work will never be quite the same again. COVID-19 has altered the experience of being a customer, an employee, a citizen and a human. The pandemic has accelerated trends such as remote working, digitization and the adoption of new technology, calling for new and upgraded skills in the post-COVID world. The skills needed in the present times include adaptability, creativity, problem solving, **interpersonal and** emotional-based – like empathy and resilience– as well as time management, communication and many more. Keeping this perspective in mind, the present module has been designed. There are four sections in this module:

Assignment 1

MARKETING

The on-going pandemic has changed the way businesses operate. It is also making it hard to predict what Marketing and Sales will look like when we enter the post-COVID-19 era. Many brands have moved online, OMNI channel formats have emerged, digital marketing has seen an upsurge by companies and many employees will continue to work remotely or in a fusion setting for much of next year. Artificial intelligence, Machine learning, Virtual Reality are various technologies used by marketers to engage with their consumers. Most of the marketers in the last one year learned, adapted and made best use of their resources to steer the brand in the direction they felt is right.

Objective of the Module: To develop critical thinking through engagement and reflection with existing marketing literature and new developments in the marketing environment. Please attempt all 4 questions

Assignment 1

Google processes two-out-of-three Internet queries made each day. We search for many things in life – we search for love, happiness, health, and search for answers to the questions of our times. We all wonder WHY. What did the world wonder “why?” about in the year 2020? Google tracks searches on an individual country basis as well as globally. Lists are based on search terms that had the highest spike this year as compared to the previous year.

- a) Which of the topics did you search for in 2020? List at least 10 topics which you searched the most
- b) Compare your searches with Google results from the given link searches: <https://trends.google.com/trends/yis/2020/GLOBAL/>
- c) Discuss the reasons for the similarities and difference which occur between your search and top trends.
- d) Why do you think it is important for marketers to study these trends? Discuss any 3 applications of these trends by organizations which have helped them to achieve better business in current times.

Assignment 2

Due to the flare up of Covid 19 people have changed the way they shop and are effectively shopping on the web. With this expansion in online shopping numerous brands are recruiting digital marketing companies to equip themselves of the present-day advertising patterns. Cording to a report by Forbes more than a quarter of marketers are spending 90% of their budgets on digital marketing. The field has become so crowded that it is excruciating for brands to perform and show up results. Discuss the journey of a brand that fueled its business in the year 2020-21

with the help of Digital marketing. Write in detail about at least 5-7 digital trends being used by the brand and what benefit did it provide to the brand. Further, conclude the discussion by enumerating the trends that you perceive to be promising for the next few years and why. The work has to be done in a word document. We suggest, do it like a project with the help of lots of pictures and infographics. Put the source reference under everything you take from the net. Any plagiarism in the text if found, will be penalised.

Assignment 3
